

# HEAVY DUTY AIR FILTERS

Quality Filtration For  
On-Highway, Vocational  
and Off-Road Applications

**LUBER**  **FINER**<sup>®</sup>  
BUILT TO DO MORE<sup>®</sup>

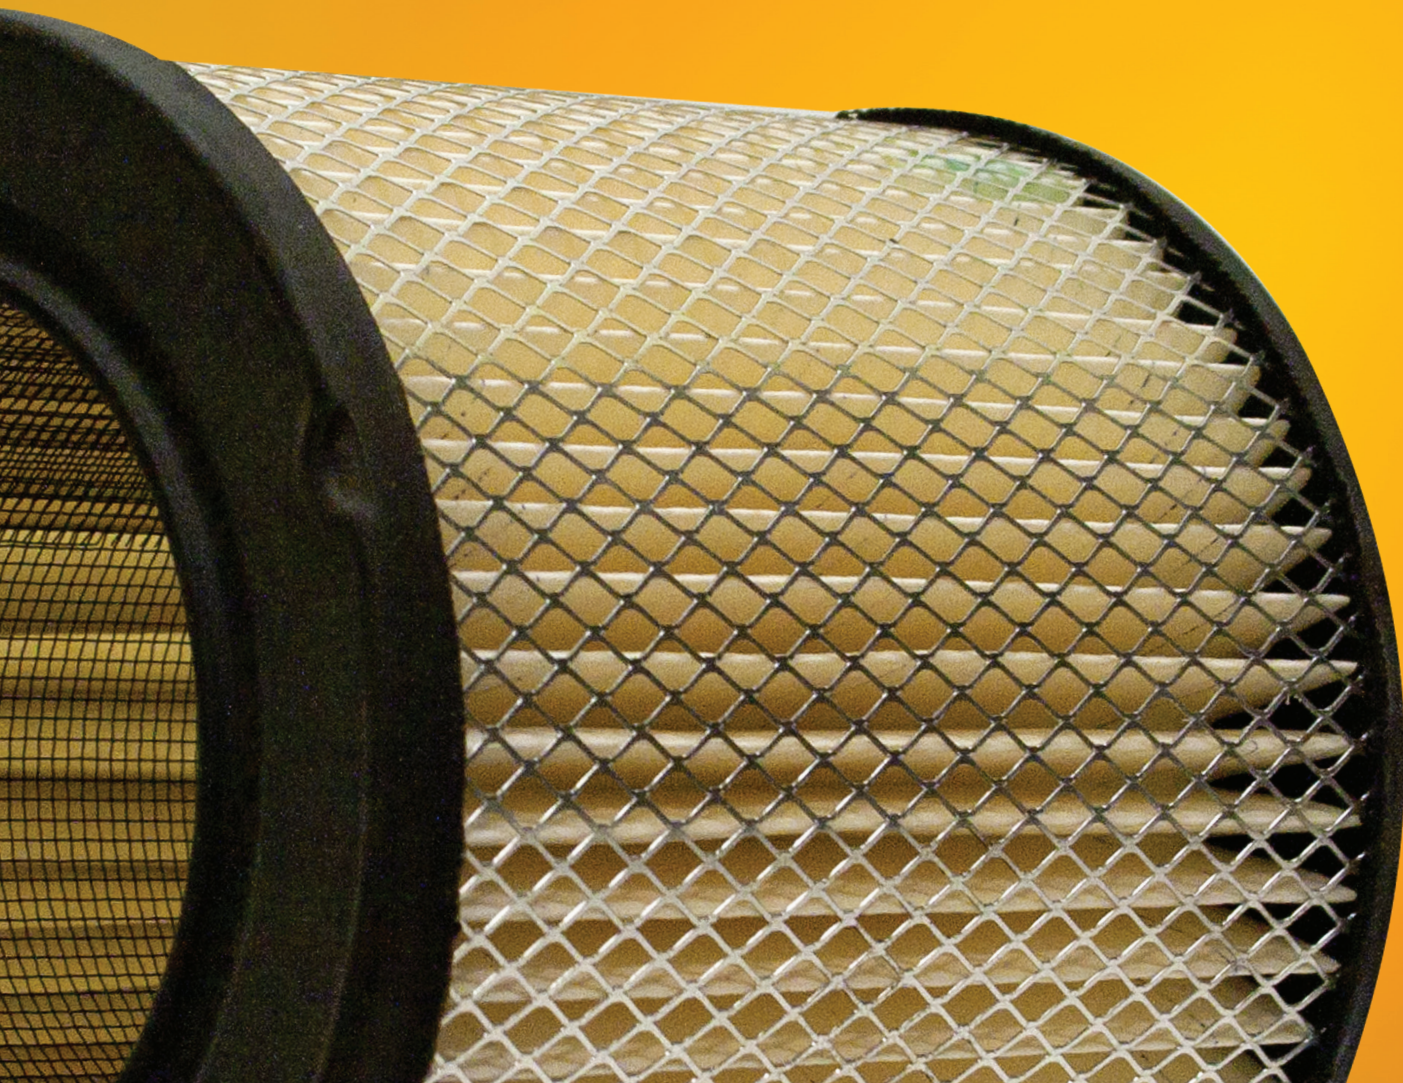

# GIVE YOUR ENGINE CLEANER AIR

Heavy duty engines rely on a mixture of air and diesel to generate power. Luber-finer® air filters capture harmful particles that can damage expensive engines. Cleaner air can help increase engine efficiency and lead to greater fleet uptime.

## Luber-finer® air filters will:

- Remove 99.9%\*\* of airborne contaminants
- Meet form, fit and function characteristics for the application

\*\*Tested per ISO 5011 model LAF1849.

## Win The War Against Dust

### With Luber-finer® MXM NANO TECH™ Air Filter

The innovative MXM NANO TECH™ Air Filter delivers high-efficiency filtration that protects a truck's engine from dust and contaminants while increasing uptime.

MXM NANO TECH™ Air Filters utilize a technologically advanced synthetic fine "NANO TECH" fiber layer, setting it apart from standard cellulose air filters. The fine fiber layer creates a substantially finer filtration mesh resulting in higher initial and overall efficiencies.

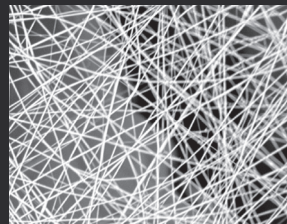

# THE NEW MXM NANO TECH™ AIR FILTER

REDUCE ENGINE WEAR AND DAMAGE THROUGH SUPERIOR TECHNOLOGY.

### Standard Cellulose Media

*Gaps between cellulose fibers are large, allowing contaminants to deeply penetrate the media.*

### Luber-finer® NANO TECH Media

*Gaps between nano fibers are small, capturing more contaminants and providing 99.99%\*\* overall efficiency.*

\*\*Tested per ISO 5011 model LAF1849MXM.
